Step 1

Affix the rod handles (#10) to the hockey rods (#11, #12, & #13) using the handle bolt (#26) and rod stopper nut (#28) as shown in the diagram. Slide the rods through the holes in the end panels. The long hockey rods (#13) should go through the outside holes of the end panel. The short rod (#11) should go through the middle hole in the end panel. The medium rods (#12) should go through the remaining holes on either side of the middle hole. Attach the rod stoppers (#14) to the hockey rods by screwing the rod stopper bolt (#27) and rod stopper nut (#28) through the hole in the middle of the rod as shown. Slide the end of the hockey rods into the rod acceptors and attach with the 1/4" round head screws (#34) as depicted in the diagram. Secure the puck catchers (#15) to the end panels using the 1/2" round head screws (#39).

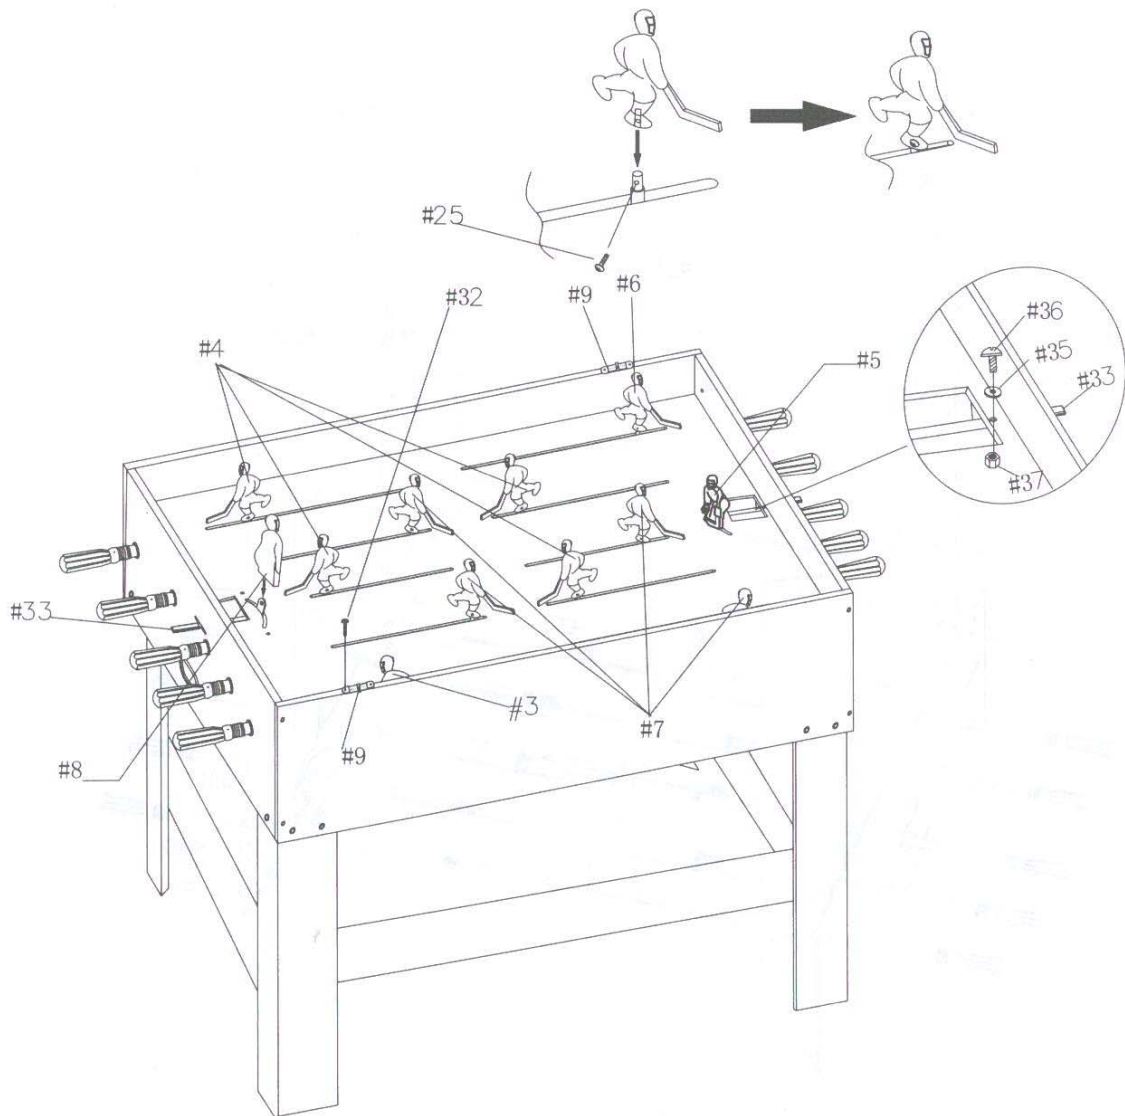

Step 2

Affix the right legs and left legs (#19) to the cabinet using the leg bolts (#29) leg washers (#30) and leg nuts (#31). Secure the side leg panels (#21) to the legs with the 1/2" round head screws (#39). Secure the end leg panels (#22) to the legs using the 1/2" round head screws (#39).

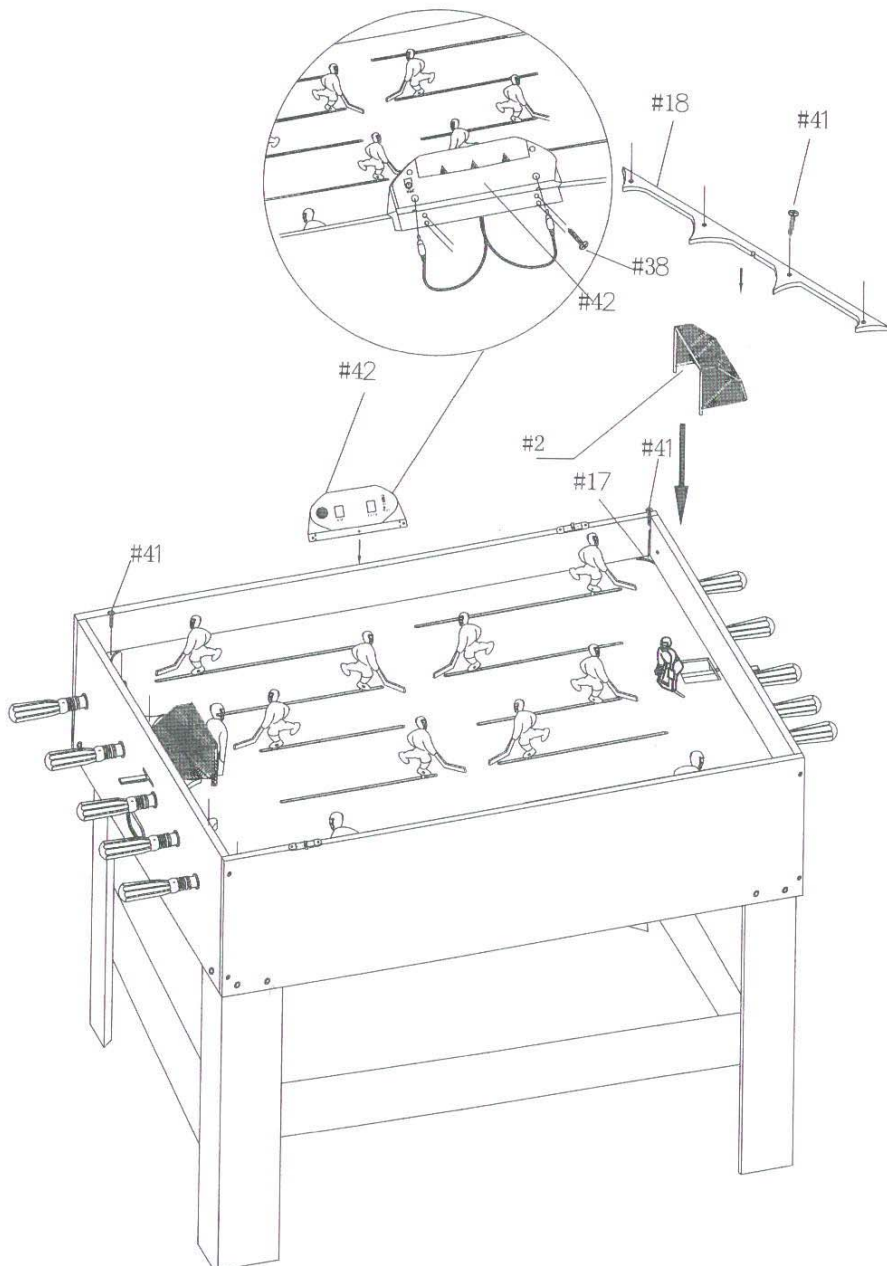

Step 3

With the help of another adult, carefully flip the table over. Secure the manual scorers (#9) onto the walls of the cabinet with the black Phillips head screws (#32). Place the goalie iron bar (#33) through the end panel so that the end with the hole is sticking through the goalie track on the playing surface. Secure the goalie iron bar with the goalie rod bolt (#36), flat washer (#35), and goalie rod nut (#37). Place the hockey players (#3, #4, #5, #6, #7, & #8) onto the screw acceptors of the hockey gears. Follow the diagram closely to make sure you put the right player on the appropriate rod. Secure the players with the 1/8" round head screws (#25).

Step 4

Secure the electronic scorer (#42) to the side panel using the 7/8" Phillips head screws (#38). Connect the wires to the scoreboard as shown in the diagram. Place the goals (#2) into place behind the goalies. Place the Playfield blocks (#18) onto each end of the playing surface and secure with the 7/8" Phillips head screws (#38). Place the triangle block (#17) into each corner of the playing surface and secure with the 7/8" Phillips head screws.
